

WhiteStar
Chat

Support and Payment Structure

Value Chain

Payment Structure Example Breakdown

1

Schools bill students for a Secure Communications line item on their tuition, and the money is passed to the school

2

The school then keep their operating expenses and costs, and passes a portion to the seller and the salesman for the account

3

The sales organization gives the salesman who closed the account their commission, and out of the remainder passes a portion back to WhiteStar

WhiteStar Dashboard

WhiteStar Chat is centrally managed from the WhiteStar Dashboard
at www.whitestarchat.io.

Account managers can manage their sales dashboard, onboard
organizations, distribute trials and have access to all of WhiteStar's
sales resources and tutorials.

WhiteStar Dashboard

The WhiteStar Dashboard has both a Sales/Admin Dashboard view and a Company Dashboard. The Admin Dashboard is for salesmen and sales organizations as well as authorized WhiteStar resellers.

The Company Dashboard is the primary view of the customer, and allows them to manage their WhiteStar apps and licenses.

WhiteStar Dashboard

Adding new users onto WhiteStar Chat is easy. Users can manually add individual emails onto their Dashboard, or quickly upload a CSV file that has a complete list of all the seats they'd like to redeem.

The WhiteStar Dashboard also integrates with a company's existing Microsoft Active Directory server, allowing companies using AD to easily pull their AD users into WhiteStar with the click of a button

The screenshot displays the WhiteStar Dashboard interface. At the top, a blue bar contains the text "Licenses Available" and a progress indicator showing "999999895 / 999999999". Below this, there are three buttons: "Add User +", "Upload CSV", and "Connect AD". A blue arrow points to the "Connect AD" button. The "Add New User" modal is open, showing fields for "Name (optional)" and "Email Address". Below these fields, there is a note: "Use commas to add multiple users at once (name1@email.com, name2@email.com, ...)". The modal also has "Cancel" and "Submit" buttons. In the background, a table lists users with columns for "EMAIL" and "DATE". The table shows four rows of data, with the last row having the email "test1@gmail.com" and the date "2022-06-30". The status "Pending" is visible next to the last row.

EMAIL	DATE
	2022-06-02
	2022-06-17
	2022-06-20
test1@gmail.com	2022-06-30

Add New +

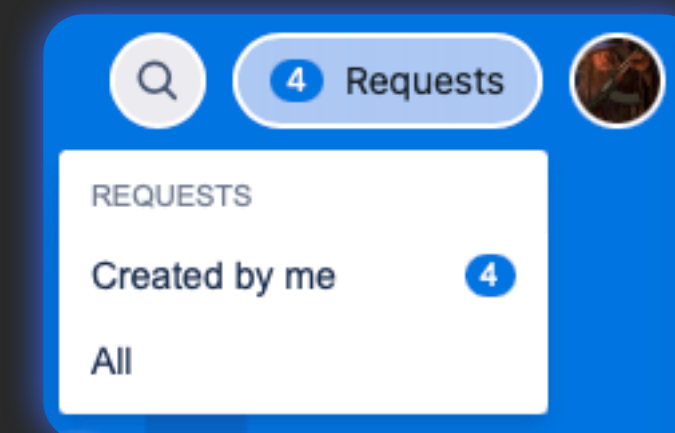

Support System

The WhiteStar Dashboard is set up to allow organizations to create and manage support tickets, report technical issues, suggest new features and improvements and manage product trials.

Organizations can track the progress of each request from their personalized Dashboard. After creating a ticket, the WhiteStar Dashboard integrates into the WhiteStar team's product support system, allowing WhiteStar to quickly manage support tickets.

Support can also be accessed by the sales team and sales organizations in the event that sales requires it.
